OBJECTIVE

Software Engineering student specializing in Machine Learning, with backend internship experience at the National Bank of Rwanda. I am looking for software engineering opportunities where I can keep building useful systems, and I am especially interested in technology that supports mental well-being and education.

EDUCATION

BSc in Software Engineering, African Leadership University 2024 – Present
Specialization: Machine Learning *Kigali, Rwanda*

SKILLS

Backend	Java, Spring Boot, PostgreSQL, REST APIs, Python
Web and Mobile	React, JavaScript, React Native (Expo), Flutter
Tools	Git and GitHub, Microsoft Office (Word, Excel, PowerPoint)
Soft Skills	Problem solving, teamwork, event planning and coordination
Languages	Kinyarwanda (native), English (fluent), French

EXPERIENCE

Mobile Development Intern Jul 2026 – Oct 2026
SOLVIT Africa *Kigali, Rwanda*

- Learned React Native through the mobile development track and built OR360i as my capstone project.

Advanced Backend Development Trainee Apr 2026 – Jul 2026
Igire Rwanda (She Can Code) *Kigali, Rwanda*

- Trained in backend development with Java and Spring Boot, finishing with the Smart Rwanda Tourism Marketplace capstone.

MIS-IT Intern Feb 2026 – Apr 2026
National Bank of Rwanda, MIS Department *Kigali, Rwanda*

- Built a full-stack Bond Management System with Spring Boot, React and PostgreSQL for registering bonds, managing users, handling approvals and producing reports.
- Worked with the team to gather requirements and delivered a working system before my internship ended.

PROJECTS

OR360i. A mobile app built with React Native (Expo) as my capstone project during my internship at SOLVIT Africa.

Bond Management System. An internal system for the National Bank of Rwanda's MIS Department that covers bond registration, user management, approval workflows and reporting, built with Spring Boot, React and PostgreSQL.

COMMUNITY AND VOLUNTEER WORK

Event Coordinator 2023 – Present
Community and social events *Kigali, Rwanda*

- Plan and run community events, from religious gatherings to social celebrations, handling logistics, schedules and guests.
